

EU Declaration of Conformity

Document no. 700.7.2369 -001 / Month. Year: 10.2022

For the product designated below
Designation: Encre sublimation Sublisplash EPN+ 125 ml
Model number: SPL-EPN-125-Y

It is hereby declared that it conforms to the essential requirements laid down in the harmonization legislation referred to below. It must be ensured that the above-mentioned product is approved for indirect contact::

Regulation (EC) No.1935/2004/EC on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC.

Commission Regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with foodstuffs (text of EEA relevance)

Indication of the relevant harmonized standards used or the indication of the specifications for which conformity is declared:

| Reference | Date of issue | Title |
|------------------------|---------------|------------------------------------------------------------------------------------------------------|
| Harmonized standards : | | |
| 1935/2004/EG | 2004-10-27 | Materials and articles in contact with food |
| 2023/2006 | 2006-06-18 | Good manufacturing practice for materials and articles intended to come into contact with foodstuffs |

| Other applied technical specifications (not published in the EU Official Journal): | | |
|------------------------------------------------------------------------------------|-----|-----|
| xxx | xxx | xxx |

The following notified body SGS-CSTC Standards Technical Services Co., Ltd. (1024) has examined the test item Sublisplash® EPN+ in 80-ml-Flaschen (für EcoTank-Modelle), and confirmed that the item complies with the test basis

1935/2004/ EC, 84/500/EEC and 2005/31/EC.

Definition Indirect contact:

In indirect contact, the ink is applied to something, which in turn is then in contact with the food. The surface must be undamaged before and after application.

An example: You make a cup, with the above product. The cup is in direct contact with the food, not the ink. Through sublimation, the color is applied to the carrier layer. This is then referred to as "indirect" food contact.

Name: PrintFabrik SASU

Address: 15A Rue Cerf Berr, 67200 Strasbourg

First Name, Name Pascal Polgen
